About the trip

This motorcycle trip is for those who are experienced bikers but prefer adventures on asphalt. We will spend 7 days on a motorcycle, and the daily distances will be around 100-250 km depending on the day. The time off the motorcycle will be spent socializing and discovering the local culture - we will try local food and listen to Simon's stories about his motorcycle adventures.

The program includes visiting some of the greatest attractions in Slovenia - Lake Bled, Kranjska Gora, the Soča River, Ljubljana and the Croatian coast. The tour starts in Maribor and then heads towards the north-western part of the country, known for its beautiful high mountains, crystal clear lakes and endless forests.

A visit to the sea is planned for the end of the trip. And it will certainly be the icing on the cake. The blue waters of the Adriatic Sea, charming architecture and Mediterranean atmosphere will make you feel a real holiday atmosphere.

Riding conditions

This is a motorcycle adventure tour of medium difficulty, but the program can be adapted to more advanced groups. During the tour, an experienced riding instructor and guide will lead the group along carefully selected off-road roads and tracks, providing all necessary instructions. The terrains we ride on are characterized by excellent riding conditions. These include picturesque asphalt routes with many turns, gravel routes and forest paths. Participants will have the opportunity to improve their asphalt riding technique, including the position on the motorcycle, the technique of cornering and behaviour in emergency situations. The off-road training led by Simon Marčič will include the following elements: off-road riding technique, turning the motorcycle on narrow tracks, overcoming easy off-road obstacles, riding uphill and downhill and many others.
