Riding conditions

This is a medium-level motorcycle tour, but the program can be adapted to more advanced groups. During the tour, an experienced riding instructor and guide leads the group along carefully selected off-road tracks, providing all the necessary guidance. On the island, we have an ideal training location, with a large, open space and a grassy area where participants can improve their riding technique in safe conditions. If there is interest, there will also be a chance of learning the technique of riding in the sand.
